# THE MEXICO TRUST CO.

WILL LIKELY BE LOCATED ON THE NORTH SIDE OF PUBLIC SQUARE.

ORGANIZED WITH \$300,000 CAPITAL.

The Company is Composed of Some of the Most Prominent and Conservative Citizens of This Community - Their Names.

A Trust Company has been organized in Mexico composed of some of the most prominent and conservative citizens. The capital stock is \$300,000. This amount was promptly subscribed. At the same time the understanding is that arrangements will be made so that other parties who desire to participate may secure stock at par from the organizers.

A trust company is along the line of a department store in business. Companies of this character are being organized in towns the size of Mexico throughout the entire country, and are proving profitable, not only to the stockholders, but to the community in which they do business. The gentlemen who have gone into this enterprise feel that the result will prove successful to the stockholders, and that Mexico and Audrain county will also be substantially benefited.

The business location of this enterprise will likely be the old Farmers and Traders' Bank building, lately occupied by Kent & Whittens grocery store, on the north side of the public square. This Trust Company is organized by the following parties:

Wm. Pollock, H. A. Ricketts, J. F. Llewellyn, E. M. Lawder, R. J. Lawder, Mrs. H. A. Lawder, R. M. White, A. S. Johnson, Wallace Rogers, Geo. Robertson, J. T. Johnson, W. H. French, W. C. Johnson, J. A. Potts, C. E. Clark, W. W. Pollock, J. R. Johnson, Alex. Carter, J. O. Edmonston.

W. E. McDonald, of Thompson, sends the Ledger a letter written by his great grandfather, A. G. Harrison, September 1, 1837.

The document is well preserved and the sheet on which the letter is written serves as its own envelope. It being folded and sealed, and addressed on the back. Where the stamp should be "Free, A. G. Harrison" is written.

Mr. Harrison was Representative in Congress at that time, serving from 1834 to 1839.

The letter follows:  
WASHINGTON CITY, Sept. 1, 1837.  
Dear Harrison: Your favor with the enclosed petition has come to hand. I have got the postoffice at Mexico as petitioned for.

We have no news worth communicating at this time. The members have mostly arrived and the town is becoming much crowded with visitors. An effort will no doubt be made to recharter the Bank of the United States, but I have no idea that it will succeed. I will send you one of the President's messages so soon as it is delivered. Your friend, A. G. HARRISON.

The letter was addressed to Locust Grove, P. O. Audrain county, Missouri. The postoffice of that name was at the farm on which James Harrison lived, 9 miles southwest of this city, now owned by his son, Wm. Harrison.

Henry Plate Dead.  
Henry Plate, aged 60 years, died at his home 44 northwest of Mexico at 7:45 o'clock Monday morning after a lengthy illness.

Decided was born in Germany and was brought to the United States by his parents when he was about 16 years of age. Twenty-two years ago he moved to Audrain and has since lived here. He leaves a widow and three children, all of Audrain county: Henry, Hugo, A. F. Richard, Monroe, Robert, Rosa, Hilda and Agna.

Funeral services will be conducted from the late residence of Rev. John Anderson, of this city at 10 o'clock Tuesday morning. The interment was in this city.

For Rent.  
200-acre farm for rent, 7 miles west of McCredie; good corn, oats and hay land; good buildings; also 50-acre farm good corn land, small house; 9 miles west of Auxvasse. Address: J. H. BLAIR, Mexico, Mo., or Des Moines, Ia.

The remains of James Baxter, who died in Hannibal a few days ago, will be shipped to Ireland, to be interred in the graveyard of his ancestors. The shipment will be made by express, although the widow will make the journey on the same train and steamer.

Pioneer Judge Dead.  
Judge Hardy, one of the pioneer judges of northeast Missouri, died at his home in Illinois county Tuesday morning. The deceased was 82 years old and was judge of the county court before the war. His funeral was held at Monroe City Wednesday.

Anti-Cigarette Bill Passed.  
JEFFERSON CITY, Mo., March 9.—The bill prohibiting the sale of cigarettes and cigarette paper to children under 18 years of age passed the senate to-day. The house had previously passed the bill.

House For Sale or Rent.  
Two-story house with two lots, for sale or rent, cheap. Property is offered at a bargain on account of not being close to square. d&wt

"X." LEADER OFFICE.  
The County School Commissioner will hold examination for rural graduates at Hall school house, in the southeast part of the county, March 20, 1903.

Bramer's school books found a ready market at 4 per cent, and the people of that enterprising town are very proud of it.

Builders' hardware; see us for locks and nails. FERRIS & CAUTIONS.

Deposits and Varieties for Practical Purposes - Turkeys and Geese Are Given Some Attention.

Correspondence of the Ledger.

Mexico, March 9.—As to the best breed of chicken - keep for practical purposes there is no question of opinion. It depends largely upon what you want to keep chickens for. If for the purpose of selling stock, either as broilers or fryers or as matured birds, of course some of the larger breeds are better. 100 pound chickens can be produced at a considerable less expense than 100 pounds of beef or pork. As a rule, the chicken will bring more per pound than the beef or pork. Broilers and fryers will bring two or three times as much as it is profitable to raise chickens for market. For that purpose the writer favors the Light Brahma. If eggs are the object some of the medium or small breeds should be chosen. As an all-purpose chicken the Plymouth Rocks and Wyandots are the popular breeds among the medium size breeds, while the Leghorns are largely chosen as the best of the small breeds. The writer prefers the medium size breeds and has been partial to the Wyandots for many years. They, perhaps, are no better than the Rocks, except that they are about a pound lighter in weight, thus maturing about a month earlier and consequently being laying earlier. That is no small item when we are breeding for profit. Another breed has recently come into popularity, viz., the Rhode Island Red. They are comparatively new in the West, but have been bred for about twenty years in New England and especially Rhode Island, where they got their name. They seemed to originate among the farmers who bred them expressly for their egg-producing qualities and their value as a market fowl. Their color is as the name indicates, a red, not a dark buff, but a genuine red. That gives them a very handsome appearance. In size, they are about a pound lighter than the Wyandots, thus giving them the advantage in maturing and consequently in commencing laying, over the Wyandots as that breed has over the Rocks. The Rhode Island Red will begin laying at from 5 to 7 months old, the Wyandot from 6 to 7 and the Red from 4 to 5. In the writer's experience the Red will excel all other breeds. In the spring of 1901 I had one yard of 12 pullets which laid an average of 9 eggs a day for 3 months. In May of that year I shipped 127 eggs from that pen to Michigan, a distance of over 500 miles, and they hatched 123 strong chicks. That seems incredible to anyone who has had experience in poultry breeding, but we can substantiate it. The Rhode Island Red is popular here, owing to their large size. It is quite common for the toms to reach 40 pounds and not unfrequently does one reach 50 pounds. The White Holland turkey does not attain so great weight, but they have many desirable qualities and are much more home-like and less liable to stray away than all the other breeds. The White Pekin duck is more largely raised than any other and is the best for market. They are more profitable in the East than in this State. The Indian Runner duck is the greatest egg-producer of all domestic fowls. It is an American breed and was made by various crossings, including some wild blood. They are small, weighing about 30 pounds for the female and 4 pounds for the male. They are non-sitters and almost constant layers. You can count on 7 eggs each week. They do not stop laying except for two or three months during molting season. The average eggs produced by one duck under favorable circumstances are 225 to 250 per year. They are great foragers and if they have good blue grass pasture require but little grain. For eggs they are the most profitable of farm fowls. They require no house to shelter them, except some little cover for them to run under in the coldest weather, and in this climate they will not need that. They never have lice, are never sick and take care of themselves generally. H. B. GREEN.

Parental Discipline in Russia.  
In Russia the patriarchal spirit is still very strong. An old man called Rybalka, residing in Novorossisk, on the Black Sea, has just been his son Stephen to death. "For daring to get drunk during the holidays." The son was 20 years of age and the punishment took place in the presence of a crowd of people. No one dared interfere, "because the old man was the father and it was his business."

A Change For C. R. Gibbs.  
Renfro Gibbs, formerly of Mexico, and up to a short time ago a traveling salesman for the Meyer Bros. Drug Company, is now interested in a big concern of importers at New Orleans. The new company has a capital of \$150,000 and Mr. Gibbs is secretary. He is well known in Bowling Green. -Bowling Green Times.

A meeting attended by 100 representative citizens of Boone county was held at Columbia recently, and it was agreed that a new convention be called. A bond election will be held soon. It is proposed to replace the present court house, which has done service since 1847, with a structure to cost \$100,000.

Holds His Age Well.  
"Notice what that white horse, Seal, sold at the street carriage sale Saturday for \$600," said a Carthage horseman to a reporter for the Carthage Press. "Well," he continued, "getting an alternative answer, 'I sold Seal' eight years ago on time to A. Hughes for just \$30, and now somebody pays \$600 cash for him. Don't tell me that isn't a commentary on the difference between Democratic and Republican good times. I tell you, there's nothing like the horse as a barometer of times."

Then the racehorse man chuckled amiably as he added: "And the joke of it is, that the old white seal sold for a 10-year-old each time, both eight years ago and last Saturday."

Representatives of the Missouri Central Electric Railway company are engaged in securing rights-of-way for that line through Callaway county, and very little difficulty is experienced in getting land.

# Blood was Poisoned.

A Happy Cure After Use of Two Bottles of Paine's Celery Compound

The Spring System Cleanser.

Health is that natural state of the whole body in which the entire nervous system is so perfectly regulated that it can, without undue effort, perform its almost numberless and all-important duties.

The blood as it courses through the body must bear nourishment and life or poisons and death.

In the spring season thousands around us suffer from various forms of blood diseases and many are unexpectedly cut down by death.

Your blood is surely filled with waste and poisonous matters when you suffer from back, pimples, blackheads, eczema, salt rashes, eruptions or itch.

When nerve force is low, when you suffer from insomnia, lassitude or neuralgia, be assured your blood demands purifying and cleansing.

Paine's Celery Compound quickly banishes from the blood all poisons; it supplies the proper elements for enriching the vital fluid, building tissue and for the general repair of the whole system. Try its renovating and life giving virtues at once if you would be made well, strong and happy.

Judge P. P. Desvergne, of Havana, says: "While I was in New York I read about Paine's Celery Compound and never thought I would ever get well. I only took one bottle of that wonderful discovery and found myself with better vigor and energy."

Mr. Thos. Young, Elmora, Pa., says: "I suffer very much from blood poisoning, and after doctoring for two months with my physician and not receiving any good results, I tried Paine's Celery Compound. The use of two bottles completely cured me. All my thanks are due to Paine's Celery Compound."

SALES AVERAGING HIGH.  
Considerations in Real Estate Transactions For February and March Will Total Over Three Millions of Dollars.

The total money paid for Audrain county property during February and March will amount to considerably over \$3,000,000.

The transfers for February totaled up to the enormous amount of \$1,211,090 and up to Saturday night of last week, 6 days, amounted to nearly the same for February. The sales for the six days of last week were:

March 2, \$310,193.  
March 3, \$232,974.  
March 4, \$48,159.  
March 5, \$203,530.  
March 6, \$201,887.  
March 7, \$131,057.

Total for week, \$1,182,820. This total, with the total for the twenty-eight days of February brings the amount up to \$2,413,900, which will be raised considerably in excess of the present month, as some of the largest sales are yet to be recorded.

Men's shirts, overalls, underwear, etc., of all kinds at prices that will win you over if you will take the time to look.

# SHORT LINE WILL BE BUILT.

Plans, However, Will Be Changed - Burlington Road Coming Into Mexico.

There has been a change in the plans of the Chicago & Alton Railway Company to build a short line from Mexico to St. Louis. It is stated with some degree of reliability that the Alton has turned the project over to the Burlington, which company will build the line from Alton, Ill., to this city and have an agreement whereby both roads will use the line and the Burlington will use the main line from here to Kansas City.

A dispatch from Bloomington, Ill., regarding the rumor says: Announcement was made here today of a joint track arrangement between the Chicago & Alton and Chicago, Burlington & Quincy, which would shorten the lines of both roads between St. Louis and Kansas City. For some time the former road has been conducting surveys for the construction of a line between Mexico, Mo., and St. Louis, in order to avoid the round-about route via Roodhouse. It is now understood that the Alton will not construct any additional line, but will use a track to be laid by the Burlington. According to the plans now under discussion, and which are believed here to have received a favorable conclusion upon the part of both corporations, the Burlington will build from Alton, Ill., to Mexico, and then use the Alton tracks between Mexico and Kansas City. In return, the Alton will be permitted to use the new track between Mexico and Alton and also the Burlington's tracks between Alton and St. Louis. The scheme gives the Alton a line between Kansas City and St. Louis fully forty miles shorter than their present route, while the Burlington will be given an inexpensive entrance into Kansas City from St. Louis.

DOING A FINE BUSINESS.  
Hathaway-Keith Grain and Implement Company Are Working a Large Force All the Time and Are Keeping Up With Their Orders.

A LEADERSHIP reporter was shown through the establishment of the Hathaway-Keith Grain and Implement Company this morning and was surprised to see the large amount of seeds and grain being handled. This firm works a large force of men, and is getting a correspondingly large business.

Just at this time they are especially busy getting out their spring seed orders. They have a large variety of the best field and garden seeds to be secured anywhere. All their seeds are fresh and will bring better results than some of the old stock. These gentlemen bring thousands of dollars to Audrain each month, and should be heartily patronized.
